

# SWG

## PROFESSIONAL WOOD SCREWS

## WHERE ARE THEY USED?

## FURNITURE, SHOP AND INTERIOR FITTING, WOODEN CONSTRUCTION AND ROOFING APPLICATIONS

### Variable and versatile application

The universal professional screw for a variety of applications. For furniture, shop and interior fitting, as well as roofing and wooden construction applications – the HOX professional wood screw is always a safe bet.

<b>SAFE AND RELIABLE</b>	approved screw
<b>FAST</b>	optimum screw-in speed
<b>PERFECT APPEARANCE</b>	clean countersinking reduces the tendency of the wood to split
<b>SAVES TIME AND MONEY</b>	energy-saving for man and machine preserves tool

# HOX PROFESSIONAL WOOD SCREWS

## OVERVIEW

### Always the right screw in reliable quality.

Our HOX professional wood screws are produced under the strictest quality conditions. This screw guarantees you consistently high quality in wood processing. It also saves energy for you and your machines.

#### Countersunk head, zinc-plated

The optimal fastening for structural applications, furniture, skirting boards, fittings and planking.

- HX drive
- Chrome (VI)-free quality surface
- SWG's own European Technical Assessment (ETA)  
(The relevant dimensions are indicated on the packaging)

Full thread

Partial thread

Partial thread with end mill

#### Countersunk head, A2 stainless steel

The optimal fastening for both indoor and outdoor applications.

- HX drive
- With sliding coating

Full thread

**VARIABLE AND VERSATILE  
APPLICATION – ALWAYS  
THE RIGHT SCREW IN  
RELIABLE QUALITY.**

# HOX PROFESSIONAL WOOD SCREWS

## BENEFITS OF THE SCREW

### PRECISE FITTING OF BIT

Thanks to its conical bit shape, the HX drive guarantees easy and safe placement of the screw and optimum power transmission thanks to the combined advantages of the recessed head and TX drive. Wobbling is prevented, therefore ensuring the surface is not damaged. Each pack contains one HX bit.

Turn 5 into 3! Only 3 bit sizes for 3–6 mm diameter

Ø 3 mm	TX 10	HX 10
Ø 3.5 mm	TX 15	HX 10
Ø 4 mm	TX 20	HX 20
Ø 4.5 mm	TX 20	HX 20
Ø 5 mm	TX 25	HX 20
Ø 6 mm	TX 30	HX 30

### PERFECT APPEARANCE

Suitable for both wood and fittings. The countersunk head with milling pockets can be easily and cleanly countersunk anywhere, resulting in hardly any damage to coated wood materials. In addition, it ensures low chipping at the surface.

### ENERGY-SAVING

The sliding coating reduces screw-in resistance and thus saves energy as less effort is required.

### TOOL-PRESERVING

The end mill acts like a drill and clears the way for the shaft and head, thus reducing friction on the screw shaft (especially with long screws).

### QUICK APPLICATION

The coarse and single-start thread provides the optimum speed for each screw length, ensures an extremely fast "bite" and is thus up to 40% faster and achieves up to 30% higher extraction values than conventional screws.

### REDUCED TENDENCY TO SPLIT

The joint thread at the screw hole keeps the wood's tendency to split low due to the drilling effect and is therefore also suitable for small edge distances.

# SCREW OVERVIEW

## COUNTERSUNK HEAD, ZINC-PLATED

### Countersunk head, zinc-plated

The optimal fastening for structural applications, furniture, skirting boards, fittings and planking.

- HX drive
- Chrome (VI)-free quality surface

# FOR YOUR SUCCESS AT POS HOX PRODUCT PRESENTATION

## Flexible and attention-grabbing product presentation!

Our product presentation sets standards for end customers and retailers alike. The layout and targeted customer guidance on the shelving with helpful user tips are designed to help consumers find the product they are looking for even more easily. From the perspective of the retail sector, this product presentation offers scope for more flexible assortments – with pack sizes from XS to XXL and precise tailoring

options to the regional competitive situation. It takes customer requirements into account as much as easy shelf maintenance and optimal assortment design for area productivity and thus for increasing sales and customer satisfaction.

## OPTIMAL ASSORTMENT PLANNING - THE RIGHT QUANTITY FOR EVERY REQUIREMENT

**S- Package** e.g. 10 pieces

**M- Package** e.g. 50 pieces

**L- Package** e.g. 150 pieces

**XL- Package** e.g. 400 pieces

Want to know more about us? Simply scan the QR code and dive into the comprehensive world of SWG.

#### Quick orientation in the market

The headboard allows consumers to identify where specific products are located, even from a distance.

#### Quick orientation on the rack

The guidance system just below helps to identify more precisely which items are on the rack.

#### Usage tip

Our user tip feature contains useful information for consumers on the use of items and their materials.

#### Quick orientation on the shelf

Large product drawing and item description on shelf strips, as well as extra large font size for product dimensions on the shelf label.
